## M. D. of Cereal

The council of the Municipal District of Cereal No. 242 met in the Municipal office at Oyen, Alberta, on Saturday, May 12 at 2:00 o'clock p.m. All the councillors except G. H. Meil were present.

The minutes of the council meeting of April 14 were read and approved.

The financial statements for the month of April were considered and accepted.

Motion No. 10 of the council meeting of April 14 as it affected S. W. and E. N. 25-24-4 was rescinded and changed to read E. N. 25-24-4 \$250.00.

The secretary was instructed to rent the S.W. 25-24-4 to the best advantage of the Municipal District.

The schedule of public works expenditure recommended by Councillor Olson for Division No. 2 for 1928 was approved by the council.

The reeve and secretary were authorized to pay the balance of the tax against the S.W. 25-24-4.

The council decided to make a grant of thirty dollars to the Oyen School Pair and twenty to the Cereal School Pair for 1928.

By-Law No. 54 making a grant of thirty dollars to the Oyen School Pair and twenty dollars to the Cereal School Pair was read the first and second time.

The council appointed the following men weed inspectors for 1928: Chas. Nelson for Division No. 1, W. Quin for Division No. 2, N. J. Wilson for Division No. 3, H. Duffield for Division No. 4, J. Skinner for Division No. 6 and T. O. Stephenson for Division No. 8.

The council authorized the secretary to levy the following rates in the various school districts in the Municipal District, Superior 6, Hills 6, Superior 9, Abbott 10, Peadarview 11, Nehalem 10, North Excel 20, Greenmount 14, Kenwood 10, Lantzburg 5, Fairweather 6, Berwinders 15, Kewick 6, Kirkwall 10, Farming Valley 10, Clarkson 8, Simpson 20, Neillville 6, Bulle Plains 6, Webster 10.

The secretary was instructed to have notices of By-Law No. 51 replacing of rubbish, fish, garbage, dirt or dust on the public lanes, high.

(Concluded on page 3)

## First Fortnightly Crop Report

Issued by Department of Agriculture, Government of Alberta, May 12

Seeding of wheat is from sixty to seventy-five per cent. completed in the southern part of the province and from thirty-five to fifty per cent. in central and northern sections and spring work is proceeding under ideal conditions, according to telegraphic reports received by the Department of Agriculture.

In a number of districts early sown wheat is well above the ground and a start has been made with the seeding of coarse grains. All reports indicate that the soil is in excellent condition as regards moisture. This is especially true of the central part of the province where rain and snow during the past week somewhat delayed spring work. Seeding of wheat is general throughout the Peace River country with sixty to eighty per cent. completed in a number of districts.

Reports from a number of districts in the province indicate that the 1928 wheat acreage will show an increase of from five to fifteen per cent. over that of last year, with very little difference in the coarse grain acreage except in localities in which spring work has been unusually delayed. The wheat acreage of the province will be limited to some extent by the small amount of fall plowing done last year, but in many cases this will be more than offset by the large acreage summer fallowed and newly broken in 1927.

Good progress is being made with the threshing of the 1927 crop which is still standing in the field in some southern districts and the quality of grain being threshed at this time is reported to be considerably better than was anticipated.

Another week will see the completion of sugar beet seeding in the south of the province where a large acreage is being put in. Winter wheat and winter rye have come through the season very satisfactorily and in practically all cases good stands are reported.

Livestock generally is in good condition and pasture are making good growth.

## LEGAL NOTICE

## MORTGAGE SALE OF FARM PROPERTY

Pursuant to the directions of the Registrar and by virtue of the Powers of Sale provided by The Land Titles Act under a certain mortgage which will be produced at the time of the sale, there will be offered for sale by public auction at the Post Office in the Village of Oyen in the Province of Alberta on Saturday the 20th day of May, 1928, at the hour of 2 o'clock in the afternoon, the following property, namely:

The North East Quarter of Section Fourteen (14) in Township Twenty-eight (28) and Range Four (4) West of the Fourth Meridian, reserving to the Crown all mines and minerals and the right to work the same.

Terms of sale to be twenty per cent cash at the time of sale and the balance according to the terms and conditions to be made known at the time of the sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed reserved bid and free from all encumbrances, save taxes for the current year.

The vendor is informed that the above property is situated about 5 miles from the Village of Oyen and that 160 acres are under cultivation.

For further particulars and conditions of sale, apply to:

Thomas Lees, Oyen, Alberta.

Dated this 20th day of March, A.D. 1928.

Approved 'W. Forbes' Registrar.

Alberta Oil Production Steadily Growing

The value of the oil taken from the thirteen producing wells in the Turner Valley field during the month of April, 1928, exceeded \$145,000 an compared with \$120,000 in the month of March, according to figures recently published in Calgary. The total production of crude oil and naphtha during April was 37,574 barrels, of which 33,700 barrels of crude naphtha were delivered through the pipe to Calgary. The figures showing the value of the month's production are based on a price of \$3.85 per barrel for crude naphtha and \$3.00 per barrel for light crude oil.

Over eight months have passed since the announcement of the crop year on September 1, 1927, and ninety per cent. of the crop has been delivered. The great bulk of non-Pool wheat has left the growers' hands.

Except for those who have not had their grain threshed owing to weather conditions, and the few who held their grain since last harvest, the non-Pool farmers have little concern in the present higher prices for wheat.

The "Average closing price" over on the tips of the Grain Trade should really be figured this time the bulk is going on the market. Thus in late September to April, when they will be benefited by high prices from now on.

What Pool members on the other hand, have a vital interest in present prices. They have seen their Pool start the crop year under a burden of tremendous wheat supplies, and a handicap of a cloud of "bearish" news. Last fall grain poured in rivers into Winnipeg, and Vancouver's facilities were taxed to the limit. Argentine had raised a tremendous crop, Europe's production was up by millions of bushels. The United States' wheat crop was huge and altogether things did not look any too rosy.

The Canadian Pool had a difficult task on hand and Pool members may have a good excuse for a feeling of elation at the successful manner in which a grave situation was handled by the organization they had created. Pool members are now in a position to participate to an appreciable extent in the rising market prices.

If there was no Wheat Pool in Western Canada what would the situation have been? The bulk of the wheat would be out of the farmers' hands and in the hands of speculators and intermediaries who would reap a very rich profit indeed. The Wheat Pool has changed this situation in a decided fashion. Now Pool members can sit back untroubled by the fact that they will get the best year's average price for the product of their labors.
